

Get to know the **neighborhood partners** at today's meeting:

City of Cincinnati Department of Transportation and Engineering (DOTE)

Diego Jordan, Josh Johnson

DOTE plans, designs, and implements transportation improvements across the city. They can help evaluate pedestrian safety improvements, traffic calming strategies, crosswalk upgrades, and streetscape improvements along Reading Road and surrounding streets. They can also advise on quick-build improvements such as tactical curb extensions or pilot streetscape projects.

[See attached "cheat sheet" for more information.](#)

Contact Info:

Cincinnati Department of Community and Economic Development (DCED)

Greg Koehler

DCED works with neighborhoods on economic development strategies, business support programs, and redevelopment initiatives. They can help connect Roselawn with business incentives, development tools, and city programs that support investment, property redevelopment, and business district revitalization.

Contact Info:

Cincinnati Parks (Planning & Design)

Jason Barron, Travis Miller, Kat McCormick

The Parks Planning & Design Division helps plan and design public spaces and neighborhood improvements. They can support concept plans for gateway areas, plazas, and public gathering spaces, and help integrate green spaces into redevelopment projects along Reading Road.

Contact Info:

Cincinnati Parks (Urban Forestry)

Crystal Courtney

Urban Forestry manages the city's street tree program and helps expand the tree canopy. They can assist with street tree planting initiatives, landscaping strategies, and long-term maintenance planning that improves shade, environmental quality, and the visual character of the business district.

Contact Info:

Get to know the **neighborhood partners** at today's meeting:

Cincinnati Metro

Max Linder, Scott Enns

Metro operates public transit in the Cincinnati region and is implementing the Bus Rapid Transit (BRT) line along Reading Road. They can help coordinate improvements around transit stops, support safer pedestrian access to transit, and work with the neighborhood on opportunities related to transit-oriented development.

Contact Info:

Invest in Neighborhoods

Elizabeth Bartley

Invest in Neighborhoods provides funding, technical assistance, and partnerships that support neighborhood economic development. They can help support business district initiatives such as façade improvement programs, business recruitment, and implementation of projects that strengthen neighborhood commercial corridors.
